OBJECTIVE

I'm seeking to join a respected organization where I can leverage my development skills to make valuable contributions. I'm enthusiastic about applying my knowledge while actively acquiring new skills in the field to expand my capabilities.

INTERNSHIP EXPERIENCE

Web Developer Intern | BECIL | DrobospaceX Automation Pvt. Ltd, Karaikudi — AUG,SEP-2023

Python, React.js, OOPS, JavaScript, CSS, HTML
- Led web development projects using HTML, CSS, JavaScript, React.js, Python, and SQL, boosting web development efficiency by **60%** after the internship.
- Learned **team organization** and managed projects from start to finish, including gathering information, designing, and implementation.
- Contributed significantly to projects, using various technologies to improve their effectiveness.

PROJECTS

- **Conversational AI with Speaker Identification:** I built a Conversational AI with Speaker Identification achieving **90%** accuracy. Tailored for interview practice, it provides language correction and guidance, utilizing Python-based ML and NLP for enhanced user engagement. (view code)
- **Student Management System (SMS) Development:** Designed and developed a comprehensive Student Management System from scratch, Utilized Python for CRUD operations and SQL for database management. (view code)
- **Designed and Constructed a Resume Builder Website:** Created a user-friendly platform using HTML, CSS, and JavaScript. Allows easy generation of professional resumes online. Which used to make over around 45 resumes for my colleagues.(view code)
